## ACADEMIC YEAR: 2018-2019

## 3.7th -11th January, 2019 : Awareness Program on Health \& Hygiene \& Construction of Public Urinal at Leitan, Durtlang (Special Camping)

| Fth -11th January,2019: |  |  |
| :--- | :--- | :--- |
| Awareness Program on |  |  |
| Health \& Hygiene \& |  |  |
| Construction of Public |  |  |
| Urinal at Leitan, Durtlang |  | 2018-2019 |

No of students who took part: 43
No of teachers who took part: 2
Objective: To motivate Community and Village Councils promoting sustainable sanitation facilities through awareness campaign and health education.

Theme: Health, Public sanitation, personal hygiene
Place of Camping: Leitan, Durtlang
Duration: $7^{\text {th }}$ to 11 th January, 2019
No of participant: students- Male: 22, Female: 21 , P.O (teachers) : 2

## Activities:

1. Anti-Open Defecation Campaign
2. Organized Awareness Programme on Health \& Hygiene

## Outcome:

Community sanitation was an effort toward environmental sustainability that the participants perceived in the sanitation program. Their valuable feedbacks claimed that sanitation program encourages hygienic practice and motivates to use latrine against open defecation, effective handwashing, no spiting in public places, and cleaning courtyards and roadsides, which result in conserving the native ecosystem. Not only the common people of the community but also the university professors should adopt the community sanitation work. In addition, the students of school and colleges will learn how to keep the community clean healthy and sustainable.

## ACADEMIC YEAR: 2020-2021

## 5.Special Camping 8-12th March, 2021 NSS

## Report of the event:

No of students who took part: 13

## No of teachers who took part:1

## Theme: Water Conservation

Objectives of the Special Camping programme
(i) Making education more relevant to the present situation to meet the felt needs of the communities and supplement the education of university/college/school students by bringing them face to face with the community situation.
(ii) To provide opportunities to NSS Volunteers to play their due roles in the implementation of various development "programmes by planning and executing development projects, which not only help in creating durable community assets in rural areas and slums but also result in improvement of the condition of weaker sections of the communities.
(iii) Encouraging the students and non-students youth to work along with the adults in rural areas, thereby developing their character, social consciousness and commitment, discipline and healthy and helpful attitudes towards the community:
Building up potential youth leaders by exploring the latent potential among the campers, both students as well as local youth (rural and urban), with a view to involve them more intimately in development projects for longer periods. The local leadership generated during the camps would also be useful in ensuring proper maintenance of the assets created as a result of the camps.
(iv) Emphasizing the dignity of labour and self-help and the need for combining physical work with intellectual pursuits, and
(v) Encouraging youth to participate enthusiastically in the process of national development, and promote national integration through democratic living and cooperative action.
Renovation of Spring Water tank, particularly the roof of the tank. Renovation was made of the Water Tank that has been earlier constructed as part of Special Camping Strategy.

6.NSS Roadside Plantation dated $14^{\text {th }}$ May, 2021

| Name of Activity |  | Organizing Unit/ <br> Collaborative Agency |
| :---: | :---: | :---: |
| NSS Roadside <br> Plantation | NSS, GJTC | Date |

No of students who took part: 10
No of teachers who took part: 2

## Motive/Objective:

Planting trees, shrubs and grasses along the road can create a productive asset and can alleviate the negative effects of roads on the local environment. Negative effects include erosion, loss of fertile soils, gully formation that undermines road foundations, heavy dust, and more. In particular, dust lifted by vehicles, especially along unpaved roads, has a direct effect on the health of people and livestock living near the roads and on crop production. Roadside tree planting can make significant improvements to the quality of roads and the environment and can protect key natural resources, especially in regions where vegetation is essential in binding the soil with organic matter that aids in enhanced infiltration and water retention in the soil.

NSS Roadside Plantation 14th May, 2021- Weeding and Planting at NSS Plot, Thiak Village.

## 9.GJTC 21st Sept 2021 : NSS Plantation Site Visit

| Name of Activity | Organizing Unit/ <br> Collaborative Agency | Date |
| :---: | :---: | :---: |
| NSS Plantation Site <br> Visit | RS, GJTC | $\mathbf{2 1}^{\text {st }}$ September,2021 |

Report of the event:
No of students who took part: 5
No of teachers who took part: 1

## Objective:

Under severe climatic conditions, selected roadside trees can form wind breaks and shelter belts to protect crops, and help to reduce climatic excesses and soil erosion. They can restore some ecological diversity to areas of agricultural monotony.

Practice:
NSS Unit, GJTC organised a programme of weeding of the unit Road-site plantation at AizawlLunglei World Bank Road near Thiak village on 18th Sept 2021. Seven dried saplings had also been replaced. The programme was attended by one PO and five volunteers and the unit thanks to the persons who volunteered themselves amidst pandemic covid-19 surge in the State.
